

PATIENT ASSURANCE PROGRAM

Pay less for the medications that help keep you healthy.

Cigna's Patient Assurance Program helps lower your out-of-pocket medication costs. There's nothing to join and no cost to participate – it's part of your Cigna pharmacy benefit as of July 1, 2021.

We make it easy to save money and stay healthy. Fill an eligible medication¹ and pay \$25 for 30-day (one month) supply or \$75 for 90-day (three month)¹ supply, out-of-pocket. Every time.

Not taking one of these medications? Call your doctor's office and ask if one will work for you. If your doctor agrees, ask the office to send a new prescription electronically to your pharmacy.

- Basaglar
- Farxiga
- Glyxambi
- Humalog
- Humulin
- Insulin Lispro
- Jardiance
- Levemir
- Lyumjev
- Ozempic
- Rybelsus
- Synjardy, Synjardy XR
- Trulicity
- Xigduo XR

¹ Participating drugs as of April 2021, subject to change. The drug manufacturer value of this program is applied at the point of sale. Actual customer cost may be less depending upon plan design. Plans with higher copays may have to absorb additional cost to get the customer to \$25, after discounts from the drug makers. Clients must have benefit designs that align to the program requirements. Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. Out-of-network coverage may be excluded or limited by plan terms.
